

Our unit has the opportunity to fill two tenure track positions in the field of human pain research. In case you know qualified, potential candidates, who may be looking for a permanent position, I would be very thankful if you could circulate the message below. Thank you so much in advance.

Kind Regards

LARS

**Tenured, faculty positions available in the field of pain research
Aalborg, Denmark**

Two senior, tenured, faculty positions in experimental and/or clinical pain research at Aalborg University/Aalborg University Hospital, Denmark are available (Associate Professor (Lecturer/Senior Lecture) and Full Professor).

The positions are affiliated with the international, pain research group at the School of Medicine, Aalborg University.

Potential candidates should have a strong track record in the field of human experimental and/or clinical pain research. We, specifically want to focus on the field of combining human pain/itch neuroplasticity research with bio-chemical biomarkers (eg. epigenetics, proteomics, genetics, metabolomics) to develop new diagnostic and predictive profiling tools.

Relocating to Denmark is a prerequisite. Supervision of students and some teaching activities are required.

Interested candidates are invited to send a short letter of interest or any inquiries to me.
